

STRUCTURAL ENGINEERING TOWARDS EVOLUTION AND HYPER-EXPANSION

IABSE CONGRESS 2026, INCHEON, REPUBLIC OF KOREA

SEPTEMBER 15, 2026

Detailed Outline:

Time	Topic	Instructor	Description
07.30 – 08.30	Registration		
08.30 – 09.15	Part A - What is Forensic Structural Engineering?	Duntemann	Describing structural failures and their origins, causes, consequences Defining the field of Forensic Structural Engineering
09.15 – 10.00	Part B - First Response: The First Steps After a Failure	Rus	Engineers' first steps upon being informed of a structural failure.
10.00 – 10.15	Coffee Break		
10.15 – 11.00	Part C - Investigation: After the Dust Settled	Duntemann	An overview of the forensic investigation process
11.00 – 12.00	Part D1 - Cases, Causes & Lessons Learned	Jakobsen	Case studies of bridge collapses and other structures in Norway
12.00 – 13.00	Lunch Break		
13.00 – 14.00	Part D2 - Cases, Causes & Lessons Learned	Rus	Case studies in Europe and South America
14.00 – 14.15	Coffee Break		
14.15 – 15.00	Part D3 - Cases, Causes & Lessons Learned	tbd	Case studies presented by a member of the IABSE Incheon SC
15.00 – 15.45	Part E - Mitigating Future Failures	Duntemann	Lessons learned from failures Influence of failures on engineering practice
15.45 – 16.00	Break		
16.00 – 17.00	Part F - Working Session guided by the instructors	All	Debate by the attendees of the reports, causes, responsibilities and lessons from a case of an actual failure NOTE: Case material emailed to the attendees a few days before the workshop
17.00 –	Closing	All	All instructors will be available for questions and open discussion.

** Draft schedule. All times and topics subject to change*
